A full course dinner will be served by the ladies of the church; the public is invited to attend. This will be one of the biggest events held in Naples for some time and will prove both interesting and enjoyable to all those who attend. Tickets are in the hands of members of the Club.

There will be a varied program of entertainment, consisting of songs by the assembly, musical selections by out-of-town artists, and speeches by prominent officials in Lions International. Harry W. Otto will give an address of welcome as president of the Village; Edgar S. Morey will speak as president of the Chamber of Commerce. Deputy District Governor Wallace J. Beatty, of Palmyra, will be the principal speaker; his address will be on "Lionism."

Other prominent Lions officials of the state and district will be present, as will delegates from a number of clubs throughout this district.

Lions clubs are primarily for the benefit of the community. In view of this fact, the public is urged to attend the Charter Night banquet, which is the formal beginning of a Lions club in Naples.

SALE OF CAMP TARION TALKED BY SCOUT COUNCIL

Sale of Camp Tarion, summer Boy Scout camp on the shores of Canandaigua Lake, is being considered by the Board of Directors of the Finger Lakes Council. The camp was not used this last summer. It is considered somewhat inaccessible for the use of a large group and the level area is too small to give space for athletic sports which it is desirable to incorporate in the camp program. A larger site is desired.

The site of Camp Tarion is ideal for a private summer home and it is believed a purchaser can be found. At a recent meeting of the Board of Directors of the Finger Lakes Council the following were named upon a committee to investigate offers for the present camp-site and of possible new sites: Judge Fred D. Cribb, Basil T. Elmer and Lee H. Leland.

Another committee was named to make a special study of the Council organization and offer recommendations. On the committee are: Basil T. Elmer, Canandaigua; Lee A. Taylor, W. G. Warr, R. W. Morris and Charles A. Mitchell, Geneva; Harry Weart, Seneca Falls; Howard Utter, Seneca Castle, and Lee H. Leland, Clifton Springs.

Sea Scouting is expected to get under way in Finger Lakes Council after plans for such an activity have been considered for months. A Sea Scout training course is scheduled, this month, and it was said that a trial group had already been organized. —Canandaigua Times-Journal.

Camp Tarion is the camp near the head of the lake, opposite Woodville. Until it was acquired by the Boy Scout Council, the property was known as Bush Point.

AZULIKET CLUB

The Azuliket Club met on Monday evening with Mrs. H. W. Teller. Roll call was answered with recent news in the business world. Other numbers on the program were: Paper, "John Jacob Astor," Mrs. John C. Bolles; paper, "Our Times," Miss Margaret L. Parrish; reading, "A Great American," Mrs. Harrie P. Weatherlow.

The next meeting will be held on November 29 with Mrs. Estella Morey.

EXIT OAK MOUNT

In its budget for 1937-1938, the Ontario County Board of Supervisors has made provision for only six months' operation of Oak Mount Sanitarium, in East Bloomfield. This is taken as an indication that the institution is to be closed soon. The new state institution in Mount Morris is caring for many patients from territory formerly served by Oak Mount.

Oak Mount sanitarium was the first county tuberculosis hospital erected in New York State.

DR. MILLER ADDRESSES NAPLES C. of C.

Ease the stringent regulations and the heavy taxes by which legitimate business is handicapped and thus allow private business to solve the unemployment problem—that was the theory expounded by President Miller, of Keuka College, in his talk before the Naples Chamber of Commerce last Thursday evening at the East Avenue Tea Room.

Dr. Miller stressed the point that high taxes and heavy borrowing are necessary to provide government employment and direct relief, that these expenses cripple the private business which should be providing the employment, and that, therefore, less—instead of more—government money would solve the unemployment problem. He also believes it should be made easier to employ boys and girls, as industry must join hands with education in solving the nation's problems.

The speaker had an easy, pleasing way of presenting his theories, and his talk was as entertaining as it was instructive.

The new president, Edgar S. Morey, presided over the meeting. Fred D. Delbridge led the group singing, with Mrs. George L. Tobey at the piano. Leroy Goodrich favored the company with readings.

Mrs. Mary Meyer, recently elected justice of the peace in Naples, was introduced, and was given a hearty ovation. Fred G. Lyon, supervisor-elect, also was presented, and he solicited the support of all citizens in his efforts to further the interests of Naples.

It was reported that new contacts are being made in the effort to secure a state police sub-station in Naples. This project was started some months ago, but no definite headway has yet been made.

Mrs. Meyer was appointed chairman of the December meeting, with power to choose her assistants.

Ladies' Night was observed at the meeting last Thursday, and about seventy persons occupied places at the tables.

NAPLES HUNTERS BRING IN VENISON

Naples hunters are good marksmen, and they make excellent records when they go to the Adirondacks for deer.

Of thirty-seven hunters who went to the mountains during the season which closed on Monday, eight returned with fine bucks—and that is an excellent average. The successful ones were Stanley Keith, Alonzo D. Adams, Edward J. Dinzler, Harry Stone, John McDonald, Simeon H. Lyon, Gordon Kennedy and Frank Schultz.

In addition to those mentioned in previous issues of The Record, the following local people have been to the mountains for the deer hunting this fall: Robert B. Allen, Leon H. Cornish, Harry Stone, John McDonald, Frank Schulz, William Schenk, Leland Stone, Dr. Norriss S. Crane, Dr. Fred Crane, Albert Hanggi, Gordon Heard, Carlton Johnson.

TELEPHONE RATES TO GO UP

Telephone rate changes will become effective on November 26 for patrons of the Rochester Telephone Corporation, which serves much of Western New York, including Naples and surrounding territory. Generally speaking, flat-rate telephone rentals will be increased ten cents a month, except on rural lines. Reductions are made for hand-set telephones. The changes are expected to yield the telephone company a net increase of about \$67,000 a year. The Public Service Commission blames the increased rates upon the great advances made in taxes exacted from utility companies.

There may be gold somewhere in the sequestered waterways of the Finger Lakes Region. That's the conclusion of Mrs. C. W. VanDeusen, of Owasco, who found a gold nugget in the crop of a big Mallard duck she was dressing for the family table. The glittering fragment was taken to an expert, who pronounced it pure gold. It was the size of a small pea. But the dead bird gave no clue to where it made the strike.

The Bath Courier gives an interesting sidelight on the recent building of the gasoline pipe line through that village. A man stood watching a crew from Texas operate a modern ditch-digging machine. After a time the on-looker walked up to the boss and protested, "That machine has taken jobs away from a lot of men. Why don't you junk it and put a hundred men in that ditch with shovels?" And the boss Texan replied in his soft, musical drawl, "Well, now, strangah, wouldn't it be bettah to put a thousand men in theah with teaspoons?"

Gasoline from the Pennsylvania oil fields now flows through Wayland at the rate of from 75,000 to 90,000 gallons an hour, the Wayland Register says. The new gasoline pipe line, 225 miles long, from Philadelphia to Rochester and Buffalo, passes through Wayland. The pipe is eight inches in diameter. A pressure of from 150 to 200 pounds is maintained by two pumping stations, one at Williamsport, Pa., and one at Corning, N. Y. The line, including pumping stations and terminals, is said to have cost \$3,000,000. A 400,000-gallon storage will be erected in Wayland.
