

Rotary Camp For Handicapped Children

The Rotary Handicapped Children's camp will be held again at Camp Babcock-Hovey, Ovid, from Aug. 23 to Sept. 1. The Rotary Camp which began in 1956 with 25 members has increased in size to 92 last year. There are now 150 applications with a possible 300 more for the 1964 Rotary Camp. These include boys and girls ranging in age from 9 to 15 which have been approved by the 20 Rotary Clubs of the Finger Lakes area according to Scout Executive, Edward T. Hesser of Geneva, who has served as camp director each year. E. Kenneth Carter of Palmyra is chairman of the selections committee.

The physical handicaps have included rheumatic fever, cerebral palsy, paraplegia, muscular dystrophy, cardiac surgery, poliomyelitis, hypophosphasia, neurodermatitis, defective hearing, defective vision, hip dislocation, congenital heart disease, nephritis, foot amputations, rickets, ankylosis, speech defect, rheumatic heart, lameness, spina bifida, clubfoot, Ehlers-Danlos syndrome, diabetes, cataracts, curvature of spine, Perthe's disease, congenital deformities, cranial aneurysm, cleft palate, epilepsy, paralysis, hemophilia, asthma, hydrocephalus.

There are over 30 different maladies ranging in nobility from wheel chair cases to normal walking ability. The campers are divided into groups at the Rotary Camp according to mobility in order to take part in the camp program to the best of their ability. The camp program is accordingly designed to serve all these young campers.

A camp staff of 30 members has been approved by the camping committee. Twenty members have previously served on the camp staff. The staff includes school teachers, nurses, coaches, youth workers, college students and high school students who are particularly interested in working with handicapped children.

Three highlights of the program this year will be the cruise to Seneca Lake, which is organized by the Geneva Rotarians, the tour of Seneca Ordnance Depot by bus looking for deer, and an entertainment program one evening by "a local orchestra."

A handicraft program, swimming, woodcraft, nature study, first aid, modified athletics, archery, rifle marksmanship and other recreational activities will comprise the remainder of the balanced program which have been planned so that every handicapped youngster attending the camp will have a worthwhile camping experience. The two weeks camping program will end with the closing campfire, Sept. 1.

The Handicapped Children's Camp is sponsored by the combined Rotary Clubs of the Finger Lakes area which includes Ontario, Seneca, Wayne and Yates Counties for physically handicapped children of this area who might not have an opportunity for a normal camping experience otherwise. Each club appoints a representative who becomes a member of the camp administration committee which is headed by W. Neil Marvin of Geneva. A large group of Rotarians will be at Camp Babcock-Hovey during the week of Aug. 17 to assist in setting up the Rotary Camp. Another group of Rotarians will be on hand Sunday afternoon when the handicapped children and their parents arrive at camp to assist them with their problems according to Camp Director Edmond T. Hesser of Geneva.

This camping program is paid for by all the Rotarians of the area and the Easter Seals program.

Contact your local Rotary Club for further information.

Hannibal Center

Mr. and Mrs. W. Brisbin of Kissimmee, Fla., and Mrs. Nellie Laberdee of Baldwinville were Tuesday visitors of Mr. and Mrs. George Tompkins.

Mr. and Mrs. John Cox left Thursday to visit their son, Seaman John Cox Jr., at the Naval Base at Great Lakes, Ill.

Mrs. George Tompkins and Mrs. Lee Hoag Sr. of Ira have returned home after spending several days touring the northern part of the state.

Mr. and Mrs. William Crandall held open house Sunday afternoon at their home in honor of the latter's parents, Mr. and Mrs. Arthur Crego's 50th wedding anniversary.

George Tompkins and son William spent Tuesday evening in Bel Isle.

Time is our most valuable asset, use it carefully.

RED CREEK

Blanche Viele received a card from California from her grandson, Howard Viele, recently, stating he had been sent there by GE for radar a few months previously he had been sent to Utah. Mr. Viele's wife joined him in California and with his brother Dick, who was honorably discharged with the rating of First Lieutenant from the U.S. Marine Corps on July 1 following four years service, are visiting places of interest and sightseeing on their return trip to Syracuse and Marston. Dick, who had graduated from Cortland State Teachers College before entering the service, has had two offers from schools as a physical education teacher.

Mr. and Mrs. Chet Pearce and sons Dean and Dain returned to their home Friday morning following a two weeks trip to Florida.

Mr. and Mrs. Bruce Frost and daughter Maralu and Mrs. Lulu McCarthy spent the week-end at Morley's, visited the Seaway and returned home by way of Canada.

Danny Henwood, son of Mr. and Mrs. Francis Henwood, and Dale Parsons, son of Mr. and Mrs. Merle Parsons, left Wednesday to attend the National Boy Scout Jamboree at Valley Forge, Pa.

Mr. and Mrs. Lyle Clark returned to their home in Pennsylvania, after being called here by the death of his father, Rev. Floyd Clark. Carol Sue Clark returned to her home in New Jersey Saturday. Mrs. Howard Bradley also returned to Youngstown, O., Saturday.

Mrs. Cora Soules is staying at the present time with Mrs. Mina Clark.

Little Leslie Burghardt entered the Lyons hospital Tuesday night and surgery was performed Wednesday morning.

Mr. Irwin Eno returned to her work at the Newark State School after being ill.

Mr. and Mrs. Hiram Hall are spending a few days in town. Mrs. Hall is the former Marian Hawley.

Mr. and Mrs. Barr Viele of

Russians Tour Upton-Rich Plant

Left to right: Vladimir Samahkin, Albert Zhigalov, Joe Murray, plant foreman; Nikolai Setunsky, Warren Upton, James Nelson, interpreter; Gene Robinson, plant manager, at top.

The Upton-Rich Corp. in Savannah played host Friday, July 10, to the Russian Agriculture delegation, pictured above. They are touring this country through an exchange program between the United States and Russia. By going through plants such as the Upton-Rich fertilizer plant, they receive ideas which will be utilized in Russia to help raise the farm economy.

The delegation has been impressed by the friendliness of the American people. The members in the group are about 30 years old. Having been but small children during World War II and growing up hearing about the "capitalist" in the United States, they were prepared to tour an unfriendly nation.

The employees of the Upton-Rich Corp. were also impressed by the friendliness of the Russians.

Syracuse visited his mother, Mrs. Blanche Viele, and other members of the family Sunday.

Dorothy Smith, Mr. and Mrs. Thurlow Creore and Vera Kasson attended the Open House in Wolcott at the home of Hugh Henry, honoring Mrs. Edward Arnold on her 85th birthday.

Mr. and Mrs. Arnold Burkhardt and son of Englewood, Calif., attended services at Red Creek Presbyterian Church Sunday morning. Mrs. Burkhardt will be remembered as the former Becky Eades of Red Creek. The Burkhardts called on Leon Timerson and Mrs. Grace Sheldon before leaving for Fulton where they are guests at the home of a sister, Mrs. Newton Wilson.

Miss Dorothy Hoff spent over the week-end with her mother, Mrs. Mabel Hoff.

Harry Markel returned home the past week after a confinement in Syracuse Veterans' hospital.

Mrs. Ethel Wilkes of Cato, Mr. and Mrs. Harry Peck of Syracuse, Mr. and Mrs. Quereau of Zephyrus, Pa., called Friday on Mrs. Grace Sheldon at the Leon Timerson home.

Charles Mitchell was in town Saturday where he made several calls on former friends.

SHOPPING STARTS IN THE PAGES OF THIS NEWSPAPER

A Public Service Health Message

MEDICAL SOCIETY OF THE STATE OF NEW YORK

THE ADULT BODY IS COVERED WITH ABOUT 1 1/2 TO 2 SQUARE YARDS OF SKIN. THE CONTINUAL EVAPORATION OF MOISTURE FROM THE SKIN - PLUS THE EVAPORATION OF WATER THROUGH THE LUNGS - TAKES CARE OF 1/3 OF THE HEAT THE BODY LOSES.

EVAPORATION SLOW

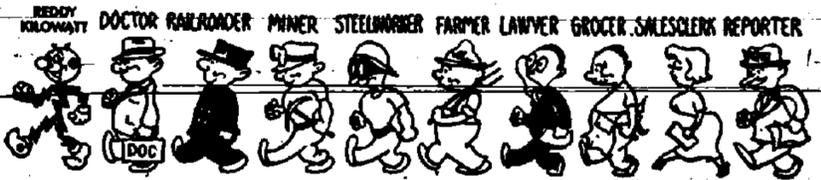

WHEN THE WEATHER IS HOT AND HUMID, THE EVAPORATION PROCESS IS SLOWED. THE PERSPIRATION FROM THE ROUGHLY 2 MILLION SWEAT GLANDS ACCUMULATES ON THE SKIN.

THE NORMAL COOLING EFFECT OF SKIN WATER-EVAPORATION IS HINDERED, AND THAT'S WHY WE FEEL DOWN-RIGHT UNCOMFORTABLE!

KNUTE BERGER, M.D.

THE STORY OF TEN LITTLE FREE WORKERS

THESE ARE THE WORKERS

Ten little workers in this country live and fair. But if you cherish freedom, little worker, love a care! Ten little workers—Reddy Kilowatt doing fine 'til Government tried to boss him—then there were nine.

Nine little workers laughed at Reddy's fate. Federal medicine came along—then there were eight.

Eight little workers thought this country heaven. 'Til Government ran railroads—then there were seven.

Seven little workers—'til the mines got in a fix. Uncle Sam took over coal—then there were six.

Six little workers—glad to be alive. But Uncle snatched the steel mills—then there were five.

Five little workers—but the farms are free no more. Having been collectivized—that leaves only four.

Four little workers—'til Government, by decree, Made them take free legal aid—then there were three.

Three little workers (the number's getting low!) Government started selling food—now there are two.

Two little workers (our story's almost done!) With clerks at work in federal stores—now we've only one.

One little worker—reporting for "The Sun" Criticized the Government—now there are none.

Ten little workers—but no longer free. Doing as they're commanded, fixed rates, naturally. This could have been prevented, if they hadn't lent an ear To the idiots who chorused—"It just can't happen here."

Yes—this could happen to you. This little story could come true unless each of us works to keep Government out of business. What can you do? Write your Congressman and tell him how you feel about it.
