"Hi" from Ardie...

We are having a great time at camp. Just remember, a SMILE is CONFIDENTENCE. Say "hi" to everyone you meet today. We're smiling at YOU!

NATIONAL CAMP INSPECTION

A team of inspectors will be at Hovey Thursday to rate our facilities. A partial check list includes: the quality of our program, activity areas, site cleanliness, the dining hall, latrines, and the overall appearance of all participants (this means SCOUTS and LEADERS).

Think: SMILE AND CHEER

We would like to be known as a *** resident camp:

Sean Horoney, 16, and a member of Finger Lakes Council's troop at the World Jamboree at Jatarac Scout Park in Australia, will present the evening program on Thursday. He is a life scout and a member of Troop 125 in Williamson. Sean likes adventure games, reads comic books, science fiction and fantasy novels and loves camping at Babcock-Hovey.

Question: What happened when a Mohawk party tried to fool Ardie?

SUNDAY'S CAMPFIRE

Campers were treated to a visit with a pre-contact Indian (aka Paul Stillman) from the Seneca tribe. History came alive with tales of a two-headed serpent, skull-shaped stones, and a giant mosquito. During a question and answer period, campers learned that a hunter always told the animal why it was being hunted. A brave's set of clothing (tunic, leggings and moccasins) usually takes four deer hides to make. Squaws in the tribe did most of the every day work (planting, cooking, making clothes) while the braves did the hunting and fishing. A person could identify a warrior's tribe by the style of his scalplock (gutchwon). The farewell at the end was indeed extra special - Mr. Stillman speaking the Seneca tongue, Hal Sutton, signing and Lobo speaking Spanish. Mr. Stillman, who has the blood of the Iroquois in his veins, makes his home in Canandaigua.

Tonight there will be a demonstration with radio-controlled airplanes in the field next to the shotgun range directly after supper.

Immediately following, we will gather in the Dining Hall for Lobo's presentation about cubbing in his home country of Uruguay.

Lobo, our international scout, did today's daily inspection of all campsites. The following areas are checked: U.S. flag and latrine and bulletin board. General appearance of the site, fireguard, litter,

The novel details a descendant of a newspaper put out of the camp in 1952 known as the Barbara Barker. Each village site has its own reporter and all that happened was printed along with pictures, such as "How high is the flag pole?" and pictures. Each boy had the opportunity of seeing his name in print so my commission for today to be nation's ROYAL VICTORY SPECIAL was to perhaps our youngest member.

After viewing a slides show earlier in the day, rebels had a chance to learn some things about the scouting program in Argentina (ARG) from Jovely's international scout "topo" - "okos".

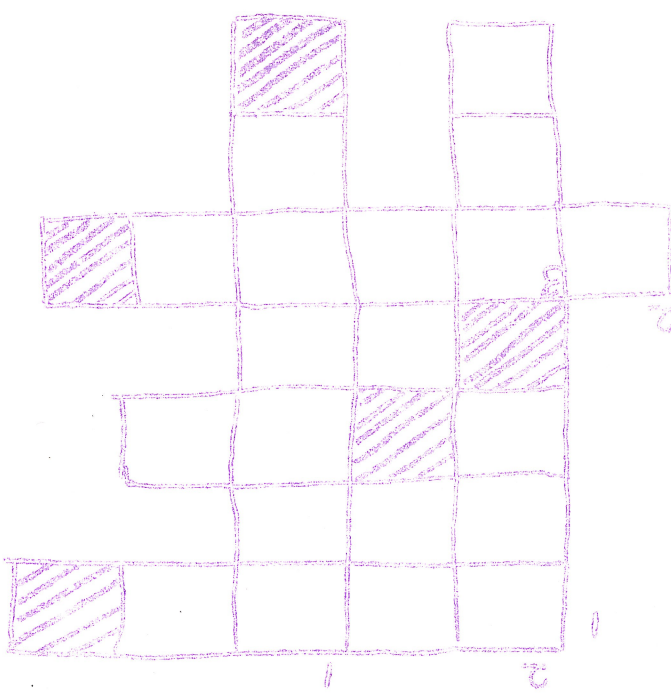

That there are three basic divisions of scouts: pack, troop and clan with special groups within each of them. Blue is the main color in work in the early group or pack. Tan shirts are worn by the older scouts. A white scarf is seen on a few scout in any of the groups.

There is a resident of Argentina, a scout leader, who is a resident of Argentina, about 10 blocks from a beautiful beach with his parents, a sister and a brother. All of the family is or has been active in the scouting movement.

no organized group of radio-controlled airplane units from Germany entertained a captive audience with several demonstrations. After the first sale of operation being "safety first," a variety of models took off and landed, soared to great heights, and did a variety of turns. On's and an's were heard when a plane stalled and plummeted to earth doing barrel rolls! "weepees to say," all signed letters when the plane pulled out in the nick of time.

## JAMBOREE LODGE RESEMBLANCE

Todd Miller, advisor for Jamboree Lodge, told the audience that to be eligible for order of the Arrow membership, a scout must be first class and have 15 days and nights of camping experience. Six of these must be a long term experience. The troop members nominate the scout to receive the honor. He also explained the ordeal each candidate must complete before being accepted into full membership. Bill Stobie, the lodge's dance team leader, explained the basic step before the team performed circle, snake and ant dances. He also explained that the dance team used to participate in competitions with other lodges. A team could be disqualified if any part of any costume came off - i.e., a feather. The team could redeem itself if one could pick up a fluffy feather from the ground with his mouth. Bill, by the way, is the western New York "fluffy dance" champion.

## WHAT THE HAVES

Chris Haroney - affectionately known as "Macaroni" is the program person in charge of leathework. She lives with her family in Williamson - along with 12 cats, a couple of dogs and a bunny. She is a den leader coach, for her pack, merit badge counselor, program director for day camp, and the Troquois district roundtable Commissioner. Chris likes to read everything when time permits. This is her fourth year at Rebels Resident Camp.

## THE LEGEND OF BIGFOOT

(as told by our storyteller - with changes)

Many years ago in this area there lived an Indian tribe and one of the bravest, wisest, strongest Indian who ever lived -

One day he came and set up camp on the far shore of Seneca Lake and

every afternoon about 4 o'clock Bigfoot would go for a ride in the lake. There is a barge moored in the lake and where the barge is, the

depth is 760 feet. This gives you some idea of the size of Bigfoot. The Indians had learned what he needed to know and he set about creating a

path for his canoe. When he had completed his task all he had to do was

take and canoe enough, right on schedule, came Bigfoot for his daily wage. The canoe carried out to him and Bigfoot turned to see who could be so rash as

1990

"Sorry," said I, "but I don't see strings here." The string crawled outside and asked a passerby if he would tie him in a knot and lay his ends. The passerby obliged. The string crawled back into the bar and asked for a drink. The bartender asked, "aren't you the piece of string I threw out awhile ago?" The string replied, "I'm a knotted knot!"

SAVING OUR "WILD AND WOOLY"

Gorillas, antelopes, garter snakes, badgers, chipmunks and other assorted wildlife invaded the wide open spaces last evening in search of feathers, names of people, litter, pine cones and a variety of other "things". There was almost a tie but one of the groups forgot to sign their sheet. The garter snakes emerged victorious!

WAVE BIASOAK SINKS AGAIN!!!!

There was once a scientist who was experimenting on frogs. He cut off one of the frog's legs and told the frog to jump. It did. He cut off another leg and told the frog to jump. It did. He cut off the frog's other two legs and told the frog to jump. The frog didn't jump. The scientist came to the conclusion that when you cut off all the legs off a frog, the frog becomes deaf.

A LETTER TO ALL THE REBELS

This week you have learned much about being scouting, being a rebel, you have the best chance in the world of becoming a full fledged BOY SCOUT. There are many things you can do while being a Boy Scout. This week at Rebelos camp you learned about just a few. First of all you learned about about jamborees. In 1993 there will be another National Jamboree. I went to the last one and they are loads of fun. I met a lot of people from this country and others (I also learned a few things too). But... In 1992 there is going to be another World Jamboree held in Korea (that's where the summer Olympics are being held this year) and from what I heard from Sean Harnsey, they are a real blast. But if you want to make more friends classes of to home, next year, around the first week in July the regular Boy Scout Camp season starts and wait till I tell you what you can do there. First of all, we'll start with Billy Goat. At Boy Scout Camp, you can learn how to shoot guns and bows the correct and safe (but, even better, the fun way). In the pool you can learn to swim better and how to save drowning people. There are water polo games. You can also learn how to rebel (climbing up and down cliffs and mountains) and the cope course, which is brand new this year. (That's not all that's new for all those). Down at the lakefront, there's sailing, canoeing and rowboating. If you're up to torture, there's always the wild swim and polar bearing. There's no end to the fun.

FISH HEAD - Also known as Larry  
 Butter lives in Interlaken not too  
 far from camp. He is part of the pool  
 staff at hotel. His outside interests  
 include reading comic books, cross  
 country skiing and computers. "Others"  
 is his least favorite TV show and  
 he loves spartan. The most amazing  
 thing of all is that he has never  
 lost a bet with Billy Galt.

JAMES EARL RAY

See you next year,  
"BOCKEN"

1957 NOV 21

When it you're not old enough to be a Boy Scout next year, there's always the year after. Remember too, there'll be another great week at the camp around the middle week

at the health lodge this week. The  
and her family live in Geneva. They  
are all here at camp this week. She  
is her pack's treasurer and is a  
volunteer OCA instructor. Her hobbies  
include sleeping, running and doing  
crafty things from back-o'-fun. She  
loves cherry cream cheese pie and the  
family version of "Double Dare". In  
May 1988, Lois will graduate with her  
Bachelor of Nursing degree from  
Nazareth College.

See you next year.

experienced and have a safe rest of the summer.  
 Remember the camp and all the new things you have  
 the friends you've made and the staff you've dunked.  
 when you leave, remember the things you've learned,  
 we hope you learned a lot this week.
